Experience

Front-End Developer

MContigo | April 2022 - June 2023

- In charge of bringing the design to the code for the layout of certain components or pages, for the different company websites, we work with React on Next.js, following various patterns for a readable and maintainable code.
- Creation of new designs for certain components of the web or complete pages to later be evaluated, approved and pass them to layout, working in Figma.
- Collaborate with other members of the Web Design team, Project Managers, among others, to coordinate tasks.
- Update of the documentation to work in the Front-End part of the project, explaining the project, its patterns and variables.
